VOLUME 24 PART 6
THE TAVERNER WILLS 1801 TO 1900

Taverner Wills & Administrations

1800 TO 1899

INTRODUCTION

In the Preston Records Office is a set of leather bound volumes detailing all the wills and administrations for England. It starts in 1860 and runs until 1898.

These entries are summarised in the following pages. They are interesting because they show that the Taverners were very much in the same areas of the country that their forefathers inhabited. They also give a fair idea of the number of Taverners at that time, showing a death rate of around 2 to 3 per year. Which, assuming an average age of 55 years shows 110 to 165 Taverners alive in England around that period of time. As well as the geographic spread, the trades and professions of the Taverners are interesting.

WILLS PROVED IN THE PC OF C

- 1856 Mary Taverner of Devon July. Will ref: 591.
